COMMENTS

On June 11, 2015, I conducted a site inspection of the closed City of Forrest City Class 1 Landfill. The Forrest City Compost Facility (Permit #0051-SCYW) is located on the southwest boundary of the Class 1 Landfill. The Class 1 Landfill is 100% covered with weedy vegetation. During my site visit at the landfill I did not observe any erosion problems, exposed waste, or settling problems. The landfill seemed to drain well and no standing water was observed on the cap. Aerial photos, engineer maps, and photos from the site visit are included in this inspection.
