We feel this problem was due to:

*Dissolved Oxygen fluctuations due to colder weather.*

We plan on correcting the problem in this manner:

*Staff immediately began troubleshooting the biological nutrient removal train and determined that the (BNR) needed more dissolved oxygen. Staff increased the aeration to the (BNR) and the plant was back into compliance.*

Time estimated that it will take to correct problem:

*Staff fixed the problem on December 11, 2024.*

Sincerely,
