Re: Faulkner Lake Treatment Plant; AR0020303

To whom it may concern,

North Little Rock Wastewater (Permit No. AR0020303) will begin draining the Faulkner Lake lagoons for repairs starting tomorrow, March 24, 2026. During this time, there will be no effluent discharge while repairs are completed.

The work is estimated to be completed within the week, with normal operations resuming by the weekend.

If there are any changes to this schedule, we will notify you promptly.

For further information, please call me at 501-945-7186.
