Re: Technically Based Local Limits Evaluation (Pretreatment)

Mr. Anderson

The City of West Memphis is required by Part I.B of Permit No. AR0022039 to provide written certification that a technical evaluation has shown that the current technically based local limits (TBLLs) are based on current state water quality standards.

We are currently revising our local technically based local limits (TBLLs). We will forward you our new limits once we approved them.

Thanks

Bob Atkins, General Manager
