**RE: City of Hot Springs Utilities
Permit No. AR0033880 / AFIN 26-00145
Progress Report – Hot Springs Creek Pump Station**

Dear Ms. Allen-Daniel,

The City has directed Crist Engineers, Inc. to prepare the construction/installation plans for Contractors to bid on the pump station improvements. The city has already purchased all of the equipment and accessories. The lead time (as of today) for delivery of the Cornell 300 HP Pumps has been extended to November 23, 2024. All valves and accessories are in storage at our Adams Street facility. Odor control is still under consideration and pending installation of the new pumps.

There were no SSO events at the Hot Springs Creek Pump Station and associated manholes in September
Should you have any questions, please contact me at mledbetter@cityhs.net.

Sincerely,

Monty Ledbetter
Utilities Director
