RE: 2025 Progress Report
Corrective Action Plan, Sanitary Sewer Overflows
NPDES Permit AR0043401, AFIN 16-00936

Dear Ms. Allen-Daniel:

Regarding CWL's Corrective Action Plan (CAP) and Addendum, dated March 28, 2016 and April 14, 2016 respectively, for National Pollutant Discharge Elimination System (NPDES) Permit AR0043401, City Water & Light (CWL) respectfully requests that the CAP Progress Report due date for submission be adjusted from December 31st each year to March 1st of the following year. This will allow for the annual submittal to coincide with the year-end calendar and better facilitate reporting to the Division of Environmental Quality (DEQ) annually.

Therefore, with DEQ's agreement, CWL would submit the 2025 Progress Report by March 1, 2026, as fulfillment to the voluntary commitment in Item IV of the Addendum to CWL's CAP.

CWL looks forward to continued ongoing and transparent communication with DEQ. Thank you for your attention to this matter and consideration of CWL's request. If you have any questions, please contact Susan Merideth, CWL Engineering Services Director, at (870) 930-3321 or smerideth@jonesborocwl.org.

Sincerely,

Jake Rice III, P.E.
