PERMIT

FOR THE CONSTRUCTION AND OPERATION OF A SOLID WASTE DISPOSAL FACILITY ISSUED BY STATE OF ARKANSAS DEPARTMENT OF POLLUTION CONTROL AND ECOLOGY

PERMIT CLASS: Class IV Landfill

CSN IDENTIFICATION: 52-0069

PERMIT NUMBER: 0255-S4

EFFECTIVE DATE: November 28, 1994

PERMIT OWNER AND ADDRESS: City of Camden
City Hall, P.O. Box 278
Camden, Arkansas 71701

LOCATION: Camden Class IV Landfill
Part of the SW 1/4, NE 1/4, SW 1/4, beginning at the northeast corners of said parcel, thence S 00° 09' 16" E, 1315.12 Feet, thence S 89° 21' 12" W, 583.03 Feet, thence N 01° 18' 08" E, 1315.83 Feet, thence N 89° 21' 12" E, 549.63 Feet to the point of beginning, containing 17.098 acres more or less, in Township 13 South, Range 17 West, Ouachita County, Arkansas. Section 29,

DESIGN ENGINEER: AMI Engineering, Inc.
201 Markham Center Drive
P.O. Box 25937
Little Rock, AR 72221

PERMIT CONDITIONS: This permit is your authority to construct and/or operate the Solid Waste Disposal Facility set forth in your application dated March 14, 1994. This permit is issued pursuant to the provisions of the Arkansas Solid Waste Management Act (Arkansas Code Annotated 8-6-201 et seq.) as amended, hereinafter called the "Act"; Regulation Number 22, Arkansas Solid Waste Management, as adopted by the Pollution Control and Ecology Commission, hereinafter called "Regulation 22"; and all other applicable rules and regulations of the Department of Pollution Control and Ecology, hereinafter called "Department", and the following terms and conditions:

1. The disposal facility shall be constructed, maintained, and operated in accordance with the final plans, specifications and operation narrative as approved by the Department and in compliance with all applicable provisions of the Act, Regulation 22, and all other applicable rules and regulations.

2. This permit shall automatically terminate unless construction of the disposal facility has been commenced within 180 days of the original effective date of the permit and is completed with all reasonable diligence or; when the authorized fill elevations have been attained. The Department shall be notified in writing when the initial construction has been completed and upon facility closure in order that it may be inspected.

SEE ATTACHED SHEET(S) FOR ADDITIONAL CONDITIONS

3. At all times the disposal facility shall be maintained in good condition and all operations shall be performed by a licensed on-site operator at all times who has been certified in accordance with Regulation Number 27, Certification of Sanitary Landfill Operators. Copies of the approved operating narrative, plans, specifications and this disposal permit shall be maintained at the site for reference.

4. This permit may be revoked or modified whenever, in the opinion of the Department, the facilities are no longer in compliance with the Act, Regulation 22, and applicable rules and regulations. This permit shall not relieve the permittee, its agents or employees, from compliance with all provisions of the Act and Regulation 22.

5. Nothing herein contained shall be construed as releasing the permittee from any liability for damage to persons or property by reason of the installation, maintenance, or operation of the disposal facility.

6. This permit is issued in reliance upon the statements and representations made in the application and the plans and specifications and the Department has no responsibility for the adequacy or proper functioning of the disposal facility.

7. This permit is for a 17.1 acre site with disposal to be in the areas as indicated on the plans. The permit will expire when the disposal area described in the final engineering plans has been filled to design capacity and is closed out in accordance with the provisions of Regulation 22. The final grades and elevations shown on the plans shall not be exceeded in anticipation of settlement and consolidation of the waste mass.

8. The amount of financial assurance required is $25,650. The instruments used must be in the exact form set forth in Regulation 22 and must be filed with the Department before the permit can become effective. A portion or all of the financial assurance may be held by the Department beyond the time of cessation of disposal operations at the site to ensure satisfactory closure in accordance with Regulation 22.

9. Preparation of the site shall be supervised and reported in writing to the Department by a Registered Professional Engineer prior to the placement of wastes.

10. An initial permit fee of $500.00 has been received by the Department. Annual permit fees due thereafter shall be assessed in accordance with Regulation Number 9, Fee System for Environmental Permits. Failure to pay annual fees when due may result in revocation of this permit.

11. This facility is for the disposal of bulky, inert, non-putrescible Class IV waste as defined by Regulation 22. This waste includes non-compostable yard waste such as tree trunks and stumps, demolition and construction debris, shredded or processed tires as defined by Regulation Number 14, Regulations and Administrative Procedures for the Waste Tire Program, furniture and appliances provided polychlorinated biphenyls (PCB's) and chlorofluorocarbons (CFC's) are removed from the appliance prior to disposal in accordance with applicable state and federal regulations, and other inert wastes that the Department may approve for disposal. Hazardous and/or toxic waste materials, liquid or semi-liquid waste, household wastes of any kind, putrescible waste, paper waste including cardboard and "Special Materials" as these terms may be defined by Regulation 22 are not authorized for

acceptance and disposal at the facility.

12. Monthly cover of six (6) inches of compacted soil shall be applied to all exposed waste on a regular schedule acceptable to the Department.

13. Measures to control and prevent stormwater from running through or into the active fill area shall be constructed and maintained at the site and no waste shall be deposited in standing water or within the seasonal high groundwater table.

14. Best management practices shall be implemented to control erosion at the site and to prevent off-site deposition of sediment, leachate and waste. In addition to other measures that may be necessary to control erosion, seeding of suitable perennial grasses and soil stabilization shall be conducted in the spring and fall on all exposed surfaces that are not to receive additional waste placement during the next growing season.

15. The final cover shall, at a minimum, consist of eighteen (18) inches of clay constructed to a permeability of 1 x 10-5 cm/sec, and overlain with six (6) inches of topsoil. Immediately after final elevations are attained, the final cover system shall be constructed and a vegetation cover of suitable perennial grasses shall be established and maintained.

16. Interim and final cover vegetation shall be properly mowed as necessary to control undesirable annual weed and woody vegetation growth and to facilitate proper inspection of the cover.

17. Failure to notify the Department of a change in ownership or a change in responsibility for the operation of the solid waste disposal facility will be cause for revocation of this permit.

18. Any statements in the operational narrative, specifications, and/or engineering plans that conflict with or are less comprehensive than Regulation 22, permit conditions herein, or other applicable laws and regulations shall not be considered authorized by the Department.

19. The Department, its employees, agents, or any authorized person shall have the right to enter the property at any time for any reason as set out in Regulation 22 for purposed of, including but not limited to, taking of samples, inspection, and any other enforcement or engineering action, without interference or delay from the permittee.

20. The Department's decision to issue this permit is final for purposes of appeal as of the date indicated in the Certificate of Service below.
