Mr. Mike Marchman
Engineer, Division of Environmental Quality
5301 Northshore Drive
North Little Rock, AR 72118

Mr. Marchman ,

Enclosed is the information requested in relations to your letter of October 12, 2026, that identified 3 areas of our compost facility to be deficient, Identifier: 0051-SEYW Revised NOI.

1.) The City has 3 employees who are certified for the compost operation: Darin Flenoy, Roy Hmailton, and Lamont Taggart.
2.) The material on site is organic leaves, limbs, and wood chippings. We would level compost area, seed and plant trees after giving compost to our citizens.
3.) The cost to close as outlined in item Number 2 will be approximately $ 48,000.00. There will not be any materials on the site other than organic matter.

Thanks

Larry S. Bryant
