**Re: Notice of Violation – Failure to Monitor
Second Half 2025 Reporting Period
NABORS Landfill, Mountain Home, Arkansas
ADEQ Permit No. 0249-S1-R2, AFIN 03-00051
Wastewater Contribution Permit No. 593**

Dear Ms. Mack:

The Division of Environmental Quality – Office of Land Resources (DEQ) has received your notice of violation letter dated January 16, 2026, regarding a failure to record the field pH monitoring result in accordance with wastewater contribution permit no. 593.

DEQ has notified our currently contracted sampling personnel of this violation and has emphasized the importance of conducting all required monitoring in accordance with permit requirements. The field pH will be documented on the chain of custody at time of sampling. This will meet the requirement for pH monitoring for the reporting period and the requirement of the pH to be taken within 15 minutes of the sample being taken. Measures will be taken to ensure that future monitoring is performed and properly documented in compliance with the pretreatment permit.

If you have any questions or require further clarification, please contact Mr. Clay McDaniel by phone at (501) 682-0836 or by email at clay.mcdaniel@arkansas.gov.

Thank you for your attention to this matter.

Sincerely,

A handwritten signature in cursive script that reads "Bryan Leamons".

Bryan Leamons, P. E.
Deputy Director, Office of Land Resources
