Subject: Notification of Construction - Garland County Class 4 Landfill, Permit No. 0300-S4, AFIN: 26-00405
Attachments: Notification of Construction - GCCG PH3-C1 and Partial Closure 7.11.2025 - signed.pdf

Good morning David!

I hope your week has gone well. Attached is a construction notice with schedule for the work that is planned for the Garland County Cedar Glades Class 4 Landfill. The work includes both construction of a new Cell 1 within landfill Phase 3 and the partial closure of the west side of the landfill that we have discussed previously. If you have any questions or need any additional information, please contact John Rogers with Crafton Tull or me.

Thanks!
Owen

SUBJECT: Notification of Construction – Phase 3–Cell 1 and Partial Closure
Garland County Cedar Glades Class 4 Landfill
Permit No. 0300-S4, AFIN: 26-00405
Terracon Project No. P35247264

Dear Mr. Isaacs:

Terracon Consultants, Inc. (Terracon) is providing this notification of construction on behalf of the Garland County Cedar Glades Class 4 Landfill (GCCG) and Crafton Tull. GCCG is constructing Phase 3 - Cell 1 of the permitted Class 4 Landfill and an approximately four-acre partial closure of the west side of the existing landfill Phases 1 and 2. Terracon, Crafton Tull and Garland County are notifying the Arkansas Department of Energy & Environment, Division of Environmental Quality (DEQ), in accordance with 8 CAR § 60-428(f), of the proposed construction schedule.

Description/Contractor Proposed Schedule

General Earthwork Contractor (McHenry and Meyer Companies, LLC)	7/14/2025 – 1/3/2026
Planned Test Fill Construction	8/4/2025 – 8/8/2025
Surveying (Crafton Tull & Associates, Inc.)	7/14/2025 – 1/3/2026
CQA Services (Terracon Consultants, Inc.)	7/14/2025 – 1/3/2026

Note: This schedule is tentative and may change due to weather delays.

The earthwork contractor is a merged company with landfill liner type experience as both James A Rogers Excavating and McHenry Excavating. At this time, it is anticipated that the contractor will construct a test fill in early August. However, similar project experience within the last three years is being accumulated, and if the merged contractor has the requisite clay liner experience,

a request will be forwarded to the DEQ to waive the test fill requirements of 8 CAR § 60-428(c)(11). A construction certification report documenting construction activities will be submitted to the DEQ upon completion of construction of the Phase 3 - Cell 1 portion with a subsequent report for the partial closure construction.

If you have any questions or comments regarding this notification, please feel free to contact us at (501) 847-9292 or owen.carpenter @terracon.com at your convenience.

Sincerely,
Terracon Consultants, Inc.
