Little Rock, AR 72211

Re: ADEQ comments regarding FTN's Revised *Use Attainability Analysis for Dissolved Minerals in the Little River and Red River, Hempstead and Little River Counties, Arkansas* dated August 28, 2014

Mr. Malcolm:

Thank you for the submission of the aforementioned Use Attainability Analysis (UAA) for minerals in the Red River and Little River on behalf of SWEPSCO and the John W. Turk, Jr. Power Plant. After meeting with FTN associates on August 26, 2014, all of ADEQ's initial comments concerning the UAA were addressed within this most recent revision.

FTN demonstrated sufficient lines of evidence that the Aquatic Life Designated Use is being attained within the studied reaches of the Little and Red Rivers, and that expected mineral concentrations from the SWEPSCO outfall will not negatively impact existing uses.

Proposed instream site-specific TDS criteria are expected to support designated uses.

If you have any questions you may contact me at 501-682-0660 or by email at clem@adeq.state.ar.us.

Sincerely,

Sarah Clem

Re: ADEQ comments regarding FTN's revised *SWEPSCO Technical Justification for a Site Specific Temperature criterion in the Little River, Hempstead and Little River Counties, Arkansas* dated September 8, 2014

Mr. Malcolm:

Thank you for the submission of the aforementioned site specific report for temperature on behalf of SWEPSCO and the John W. Turk, Jr. Power Plant. After meeting with FTN associates on August 26, 2014, all of ADEQ's initial comments concerning the UAA were addressed within this most recent revision.

FTN demonstrated sufficient lines of evidence that the Aquatic Life Designated Use is being attained within the studied reach of the Little River, and that the existing temperature regime is a product of upstream sources and landscape, not SWEPSCO's permitted effluent. Data presented within this report shows that daily maximum temperature exceeds the current site specific criterion of 30 degrees Celsius greater than 10% of the time along the stream reach.

The proposed instream temperature criterion is expected to support designated and existing uses. This determination is based on fish community data, temperature/dissolved oxygen and other data provided within the report.

If you have any questions you may contact me at 501-682-0660 or by email at clem@adeq.state.ar.us.

Sincerely,

Sarah Clem

PROPOSED MINUTE ORDER

On September 11, 2014 Southwestern Electric Power Company (SWEPCO) John W. Turk, Jr. Power Plant filed a Petition to Initiate Third Party Rulemaking to Amend Regulation No. 2, Water Quality Standards (Petition). Pursuant to Ark. Code Ann. § 8-4-202(c), the Arkansas Pollution Control and Ecology Commission (APCEC or the Commission) has sixty (60) days in which to either institute rulemaking proceedings or to give written notice denying the petition for rulemaking.

The Commission's Regulations Committee met on September 26, 2014 to review the Petition. Having considered the Petition, the Regulations Committee recommends the Commission institute a rulemaking proceeding to consider adopting the proposed revision to Regulation No. 2. The Regulations Committee also proposes adoption of the following procedural schedule so consideration of this matter may proceed in an efficient and orderly manner.

1. SWEPCO and the Arkansas Department of Environmental Quality (ADEQ) shall file an original and one (1) copy and a computer disk in Word of all material required under this Minute Order. This requirement does not apply to transcripts.
2. Persons submitting written public comments shall submit their written comments to ADEQ and ADEQ will deliver the originals of all comments to the Commission Secretary at the conclusion of the proceeding.
3. SWEPCO shall submit to ADEQ's Public Outreach and Assistance Division (POA) the following:
 - a. A proposed public notice to be used in mailing notice to interested persons, for publishing in appropriate industry, trade, or professional publications as the Commission may select. The proposed public notice may, at the ADEQ's discretion, be approved for use or ADEQ may choose to prepare its own public notice. The public notice shall conform to the requirements of Regulation No. 8.803. The public notice shall be published not later than 45 days prior to the first public hearing. By agreement, SWEPCO shall pay the costs of the newspaper publications and the costs of the appropriate industry, trade or professional publications chosen by the Commission and shall file only the original proof of publication with the Commission. ADEQ shall be responsible for mailing the

public notice to all persons who have requested advance notice of rulemaking proceedings and the cost of the mailing.

- b. Fifty (50) copies of the executive summary of the proposed rulemaking.
 - c. Bound copies of the Petition and all supporting documentation, the number of which is to be determined by POA.
4. A public hearing shall be conducted the week of November 17, 2014 in Hope, Arkansas. The exact date, time and location for the hearing will be set by SWEPCO in cooperation with ADEQ's Public Outreach and Assistance Division .
5. The period for receiving all written comments from SWEPCO, the public and ADEQ shall conclude ten (10) business days after the date of the public hearing, unless an extension of time is granted.
6. SWEPCO and ADEQ shall each file, not later than 14 days before the Commission meets to consider adoption of the proposed regulation, a Statement of Basis and Purpose and Responsiveness Summary as required by Regulation No. 8.815. In addition, SWEPCO and ADEQ shall file a proposed Minute Order deciding this matter.
7. ADEQ shall seek review of the proposed rule from the Joint Interim Committee on Public Health and Welfare and from the Joint Interim Committee on Administrative Rules and Regulations.
8. The Regulations Committee and the Commission may consider this matter at or before their February, 2015 meeting. In the event the appropriate legislative committees do not complete review of the proposed rule by the above date, the Regulations Committee and the Commission will consider the proposed amendments to the regulation after review by the appropriate legislative committees. Members of the Regulations Committee may ask questions of any persons that made oral or written comments and it will make a recommendation to the Commission.
9. At the commission meeting, the presentation of oral statements and legal arguments will be regulated as follows:

-
- a. The Chair of the Commission will permit members of the public to make a statement to the Commission. No more than three (3) minutes will be allowed for each statement. The period for statements will close at the end of one (1) hour, or sooner if all interested persons have completed their statements. At the discretion of the Chair, the one (1) hour oral statement period may be extended.
 - b. At the discretion of the Chair, an attorney representing one or more individuals, a corporation or other legal entity may be permitted five (5) minutes in which to address the Commission.
 - c. Legal counsel or other designated persons representing SWEPCO and the ADEQ shall be permitted ten (10) minutes in which to address the Commission.
 - d. At the conclusion of all statements, the Chair will call on each Commissioner for the purpose of asking the attorneys or persons sponsoring statements who are present, any questions they may have. Attorneys will not be permitted to respond or ask follow-up questions of any person questioned by a Commissioner.

After each Commissioner has had an opportunity to ask questions, the Chair will entertain a motion on the matter, allow discussion, and call for a vote of the Commission members.

10. If SWEPCO desires a transcript of the public hearing, Regulations Committee meeting, and Commission meetings, or if required by the Commission, SWEPCO agrees to pay all costs for the preparation of a transcript of the public hearing, Regulations Committee meetings, and Commission meetings which concern this docket and occur after the adoption of this Minute Order. If a transcript is required, SWEPCO shall employ the court reporter and the court reporter shall deliver the original transcript to the Commission Secretary.

11. The Commission finds the proposed regulation does not affect small businesses and therefore concludes that Act 143 of 2007, as amended by Act 809 is not applicable.

The Commission accepts the recommendation of the Regulations Committee and initiates the rulemaking proceeding in this docket. The Commission adopts, without modification, the procedural schedule set forth above.
